Manager of Prevention Dept. BIAMA

Linda Lacke, Injury prevention  
Coordinator, Trauma Division Mass  
General Hospital

Neal McGrath, Ph.D., Clinical Director,  
Sports Concussion New England

## *Workshop Description*

What is concussion? What are the signs and symptoms? How does it impact students and learning? What are the short and long-term implications? What can we do to provide baseline assessments, as well as to support the recovering student? What resources are available to support the family, as well as the injured student? When is it safe for an athlete to return to practice, the playing field or the court?

This workshop provides information from Brain Injury Prevention 101, through long-term effects, and concussion management for school personnel. A model for concussion management programs in school athletic departments will be presented. Academic accommodation for students recovering from concussions will be discussed.

***10 PDP'S are available for individuals who attend 3 or more workshops.***

***See flip side for registration information.***
