Somerville High School Auditorium
81 Highland Ave, Somerville***

Students learn better when they feel safe.

Please join us for a conversation about improving student safety in our schools and community!

Keynote Speaker: Gerard T. Leone Jr., Middlesex District Attorney

Everyone thinks it won’t happen to them. But, drunk driving and other alcohol related fatalities and other injuries occur every 45 minutes in the United States. Stories of students losing their college admission offers and financial or athletic scholarships as a result of being involved in any incident involving the use of alcohol and other illegal drugs are very common. During this special forum Middlesex County District Attorney Gerry Leone will talk about the health and legal implications for teen alcohol use – for students and their parents. This training is aimed at giving students and parents the most up to date information related to the legal, social, and health-related consequences of drinking and driving, and serving minors alcohol.
