Deb Arnold, High School Outreach
Consultant, Mass Council on
Compulsive Gambling

Marty Toomey, Director of the North
Brookfield Youth Center and Co-
Creator of the Creative Activities for
Probability and Statistics (C.A.P.S.)
Program

Workshop Description

Teenagers have the fastest growth in the incidence of gambling of all segments of the population. With that increase in activity, comes a concurrent increase in problem gambling. This often silent issue goes unnoticed by many coaches, guidance counselors and parents who are more often focused on reducing teen drug and alcohol use.

At this workshop, participants will not only learn about the signs and symptoms of problem gambling, they will also participate in interactive, movement-oriented games designed to help teens prevent gambling problems. Through these games, participants will learn how understanding probability and statistics lowers ones risk of developing a problem with gambling.

10 PDP'S are available for individuals who attend 3 or more workshops.

See flip side for registration information.
