

Mass. Track & Field Officials Association Seeks New Members

The Massachusetts Track & Field Officials Association is seeking new officials for the upcoming interscholastic Cross-Country, Indoor Track & Field and Outdoor Track & Field seasons. Track & Field consists of three seasons; Cross-Country in the fall and track & field in the winter and spring. The process of becoming a certified official is rather simple. Once a candidate applies for membership a rule book is sent to the individual, who must then pass an open book quiz. Additionally, an online class is required. Our members officiate track meets at local high schools and colleges as well as other meets including the Boston Marathon. During our peak seasons of winter & spring, there are track meets seven days a week. For further information please contact, Jeffrey Blonder at mtfoa.membership@gmail.com
