

MIAA MINIMUM WEIGHT CONTROL CERTIFICATE

Wrestling

MIAA Member schools will be required to duplicate the following form (Minimum Weight Control Certificate) for each athlete participating in their wrestling program. **Girls must be certified in BOTH weight classes.** This form is to be entered on the [FloArena website](#) and kept on file in the Athletic Director's office prior to a wrestler's first interscholastic competition.

Student _____ School _____

Gender: _____ Birth Date _____ Height _____ Weight _____

Weight Assessment and Body Fat Percentage

The Massachusetts Interscholastic Athletic Association strongly recommends that a lean body weight measurement be taken to establish the minimum safe weight classification for the wrestler to participate in. The medically accepted techniques of Bioelectrical Impedance and Skin Fold Calibrations are two reliable and convenient methods of determining a wrestler's safe and minimal weight classification.

METHOD USED (check one): Bioelectrical Impedance _____ Skin Fold Calibration _____

Date _____ Current Weight _____ **RESULT: Body Fat Percentage** _____

***Body Fat/Weight Assessor Signature & Title** _____

(if different than medical professional signing below)
