2. Each league will designate two (2) alternates, per gender, to replace any absent skiers from that league. Any changes to a qualified skier must be submitted to the league president at least 24 hours prior to the race. At that time, the League President will notify the alternate's athletic director and coach that they will be participating in the race. It is then the League Presidents responsibility to notify the Tournament Director and the MIAA Ski Liaison of any changes 24 hours prior to the start of the race. On the day of the race there will be no changes to the participant list and alternates who were not notified to replace a qualified skier will **NOT** be asked to race.
3. Each participant MUST be a member of a school ski team that is registered with the MIAA and has a school appointed coach. The school ski team must be a bona fide member of an MIAA ski league.

D. GENERAL INFORMATION:

1. **School Representative**
The coach of record must check in the team and must remain at the championship site at all times or the skier(s) will not be accepted by the tournament director. Last minute changes must be a member of school personnel and verified in writing by the principal before the skier(s) are allowed to compete. Each coach must sign the race event check-in document.

2026-2027 Ski Tournament Format

- For 2 teams entered, 3 coach tickets will be issued.

3. Seeding

- a. The Tournament Director will place each league's name in a hat and draw them out one at a time until all leagues have been drawn. The order in which each league was drawn will constitute the order of seed. After the first seeded racer from each league has been placed, the tournament director will then rotate each league three (3) places down the running order with the bottom three (3) leagues from the first round becoming the top three (3). That process will be completed until all seeds have been drawn.
- b. The second run will be seeded the same as the first.
- c. Racers who miss their starts will be placed at the end of the run order and allowed to race.

4. Scoring:

All racers attending the state championship will be competing for team points, provided their school is represented by a minimum of three racers. There is no maximum to the number of individuals who can compete as a team and potentially score as one of the top three racers from the team. Scoring for the Team Championship will follow the guidelines listed below.

- a. TEAM - Team standings will be determined in accordance with the following scoring guidelines for the Boys' Championship and Girls' Championship.
 - (1) *We will use the lowest three times from giant slalom and from slalom. The lowest times will be combined for the team score. The lowest team combined times determine the State placement for teams.*
 - (2) **A team must have at least three (3) skiers finish each race to be considered for the team title.** The three (3) lowest scores earned by each team in GS will be added together to get a team score for GS. The same will occur for SL. A team's total score will be a combination of the team's GS and SL run scores. The team with the lowest combined score will be the Massachusetts team champion. Ties in team scoring shall be resolved by comparing the fourth-place finishers from the tying teams. The team with the best fourth-place finisher shall prevail. If one team does not have a fourth-place finisher, the team with the fourth-place finisher shall prevail.
- b. INDIVIDUAL - All competitors are eligible for the individual Slalom and Giant Slalom championships. The 10 male and 10 female competitors with the fastest times in each discipline will receive individual awards.
