The diagram illustrates a sequence of events, likely a tournament bracket or a project flow, with names, codes, and numbers in a branching structure. The events are organized into levels (L6, L7, L187, L188) and are connected by lines indicating the flow of the sequence. The names and codes are color-coded: blue for names and red for codes. The numbers are black.

- L6:** S. Callahan *TEWK* (blue name, red code). Below it, a box contains "BYE" and "BYE".
- L7:** B. Almas *WILM* (blue name, red code). Below it, a box contains "BYE" and "BYE".
- L187:** A. McGillivray *BURL* (blue name, red code). Below it, a box contains "DEC 8-6" and "5th".
- L188:** B. Ayala *EXCL* (blue name, red code). Below it, a box contains "FOR" and "FOR".

The diagram also includes several other names and codes, some of which are connected to the main sequence by lines:

Figure 1: A dendrogram showing the hierarchical clustering of 10 different genotypes based on their genetic similarity. The genotypes are labeled on the left: L77, L78, L79, L80, D. Brown, A. Orubo, M. Cebula, S. Lockett, S. Frank, and L160. The dendrogram branches from left to right, with the root at the far right. The distance scale is indicated by the numbers in the boxes: 162, 195, 233, 163, and 196. The genotypes are grouped into several clusters: (D. Brown, A. Orubo) with distance 162; (A. Orubo, J. Hall) with distance 195; (M. Cebula, S. Lockett) with distance 163; (S. Lockett, S. Frank) with distance 196; and (J. Hall, S. Frank) with distance 233. The final cluster (L77, L78, L79, L80, D. Brown, A. Orubo, M. Cebula, S. Lockett, S. Frank, L160) is formed at a distance of 233.
