Phylogenetic tree of the 19S ribosomal protein L25 from various species. The tree is rooted at the bottom left with L25 from I. Solomon (MONT) as the outgroup. The main clade splits into two major groups. The left group includes L25 from R. Olihovik (FRMG), S. Griffin (FRNK), S. Philion (STJS), and R. Centauro (L-S). The right group includes L25 from M. Korch (CHLM), E. Miller (SPRC), and a clade containing L25 from R. Olihovik (FRMG), M. Korch (CHLM), and E. Miller (SPRC). Bootstrap values are shown at the nodes: 137, 191, 138, 139, 192, 231, 266, 140, and 232. Scale bars represent 0.1 substitutions per site.

The pedigree chart illustrates the inheritance of the TCFY gene across several generations. The chart is divided into two main sections: the top section shows the family of A. Trondeau and S. Smily, while the bottom section shows the family of S. Smily and C. Bou Habib.

Top Section (A. Trondeau and S. Smily):

- Generation I:** A. Trondeau (WPOL) and S. Smily (SHRN) are the parents of the top section.
- Generation II:** A. Trondeau (WPOL) and S. Smily (SHRN) are the parents of the top section.
- Generation III:** A. Trondeau (WPOL) and S. Smily (SHRN) are the parents of the top section.
- Generation IV:** A. Trondeau (WPOL) and S. Smily (SHRN) are the parents of the top section.

Bottom Section (S. Smily and C. Bou Habib):

- Generation I:** S. Smily (SHRN) and C. Bou Habib (TCTY) are the parents of the bottom section.
- Generation II:** S. Smily (SHRN) and C. Bou Habib (TCTY) are the parents of the bottom section.
- Generation III:** S. Smily (SHRN) and C. Bou Habib (TCTY) are the parents of the bottom section.
- Generation IV:** S. Smily (SHRN) and C. Bou Habib (TCTY) are the parents of the bottom section.

The chart includes various genotypes (e.g., BYE, WPOL, SHRN, CANT, JQUS, NATL, MLFD) and their relationships. Key individuals are labeled with numbers in boxes (e.g., 144, 145, 146, 147, 197, 198, 225, 226). The chart is a detailed representation of the genetic data provided in the text.

Figure 1 is a complex pedigree chart showing the inheritance of the 134del11 mutation across three generations (L30, L31, L32). The chart includes names of individuals, their relationships, and the results of various genetic tests (e.g., TRIT, NAS, PENT, GLO, WSTN, NMPats, EXCL). Key events include the birth of L31-185 and L32-259, and the identification of the 134del11 mutation in L31-185 and L32-259. The chart also shows the results of a 134del11 test in L31-185 and L32-259, and the results of a 134del11 test in L31-185 and L32-259.

The diagram illustrates a phylogenetic tree with several internal nodes and terminal taxa. The taxa are labeled with names and codes, often followed by a color-coded label in blue. Branch lengths are indicated by numbers along the branches, and node numbers are provided for specific points in the tree.

- Top Level:** A root node splits into two main branches. The left branch leads to a clade containing *B. Bottari* (*BLCH*) and *J. Antes* (*Fron*). The right branch leads to a large clade containing *A. Florek* (*HAMP*), *N. Alejandro* (*HCS2H*), *W. Purington* (*MHF*), and *J. Patrick* (*JDUG*).
- Left Clade:** This clade further divides into two groups. One group contains *B. Bottari* (*BLCH*) and *J. Antes* (*Fron*). The other group contains *A. Abreu* (*MTGY*) and *A. Florek* (*HAMP*).
- Right Clade:** This clade also divides into two groups. One group contains *A. Florek* (*HAMP*) and *N. Alejandro* (*HCS2H*). The other group contains *W. Purington* (*MHF*) and *J. Patrick* (*JDUG*).

Key features of the diagram include:

- Node Numbers:** 127, 177, 128, 92, 178.
- Branch Lengths:** L42, L41, L40, L39, F 5:20, L125, F 2:26, F 5:18, L126, SFS2H:52.
- Taxa Labels:** *B. Bottari*, *J. Antes*, *A. Abreu*, *A. Florek*, *N. Alejandro*, *W. Purington*, *J. Patrick*.
- Color-Coded Labels:** *BLCH*, *Fron*, *MTGY*, *HAMP*, *HCS2H*, *MHF*, *JDUG*.
